

CLCP-XX-P

Description

By combining the most advanced materials and sophisticated assembly techniques Intercon 1 provides the most robust industrial assemblies available.

These assemblies are designed to function within a broad range of temperature and environmental conditions and may be used in either static or flex applications.

Features

High Flex Cable designed to surpass 1 million flexes

Overmolded Connectors

Thumbscrew Locking

360 Degree Shielding

Controlled Skew performance

RoHS Compliant

Main Product Specifications

Connectors:

3M MDR 26 Position

Cable:

Conductors:

11 Individually Shielded Twisted Pairs
4 drain wires

Jacket Material:

Lead Free PVC

Overall Diameter:

.375 inches

Overall Shield:

Tinned Copper Braid

RoHS Status:

Compliant
