

## **High-Flex Right Angle Gigabit Ethernet Cable Assemblies from Intercon 1**

Customizable for Limited-Space Applications;  
Available in Variety of Strain-Relief Orientations and Lengths

MINNEAPOLIS – (Business Wire) – The Intercon 1 division of Nortech Systems Inc. (NASDAQ: NSYS) introduces High-Flex Right Angle Gigabit Ethernet (GigE) Cable Assemblies for GigE and GigE Vision® cameras.

Unlike off-the-shelf options, these assemblies are built to customer specifications for length and connector orientation – right/left, up/down and straight. This customization and the assemblies' low profile help minimize increasingly tight space requirements.

The industrial-rugged assembly design includes overmolded strain relief and thumbscrew-locking connectors for greater data integrity and performance, even through motion and vibration. Intercon 1's high-flex cable has exceeded 12 million cycles in both tick-tock and rolling torsion testing. The double-shielded cable is engineered to minimize EMI interference and cross-talk; its durable TPE jacket resists environmental conditions like moisture, oil and abrasion.

### **About Intercon 1**

The Intercon 1 division of Nortech Systems is a global leader in the supply and manufacture of industrial-rugged Machine Vision digital and analog video cable and cable assemblies, specializing in custom solutions and quick turnaround. Intercon 1 is based in Baxter, Minnesota, U.S.A. Further product information and a high-resolution image can be downloaded from [www.intercon-1.com](http://www.intercon-1.com).

GigE Vision® is a camera interface standard hosted by the Automated Imaging Association.

### **About Nortech Systems Incorporated**

Nortech Systems Incorporated ([www.nortechsys.com](http://www.nortechsys.com)), based in Wayzata, Minnesota, U.S.A., is a full-service electronics manufacturing services (EMS) provider of wire and cable assemblies, printed circuit board assemblies, and higher-level complete box build assemblies for a wide range of industries. Markets served include industrial equipment, aerospace/defense and medical. The company has manufacturing capabilities and operating partners in the U.S., Asia and Latin America. Nortech Systems Incorporated is traded on the NASDAQ Stock Market under the symbol NSYS.
