Right Angle Camera Link Cable Assemblies Distributed Through Global Network

BAXTER, MINNESOTA — The **Intercon 1** division of Nortech Systems, Inc. (NASDAQ: NSYS), the predominant global producer of molded Camera Link assemblies, is currently distributing Certified Camera Link cable products in 38 countries around the world through 13 international outlets.

The newly introduced molded cable assemblies, available in right angle UP and right angle DOWN configurations will ship from stock in most common lengths. With a profile of 1.5" (38mm) nominal they work in the majority of 'restricted-space' applications. **Intercon 1's** R&D and Product Development, Team located in Baxter, Minnesota is responsible for the global introduction and promotion of this new Camera Link product.

The nucleus of these robust and resilient industrial-grade assemblies is found in **Intercon 1's** unique **InterFlex™** individually shielded, twisted-pair (ISTP) cable. This exclusive **Intercon 1** design incorporates extended life-cycle characteristics while offering precise signal transmission for Camera Link^{CM} equipment. **Intercon 1** InterFlex **InterFlex™** (*1 million cycle plus, High-Flex*) Industrial Camera Link cable used in these assemblies conforms to established signal transmission standards and has been tested to over 5 million cycles in independent testing.

Other new Camera Link products currently under development include Low Halogen assemblies, extension cables, internal hook-up assemblies, and **LinkIT^{hru}™** boxes.

All inquires regarding distribution and sales of the **CLCP** product should be directed to International Representatives assigned to this product line. Email to intercon@nortechsys.com or phone 218-828-3157 (FAX 218-828-1096) in the United States.
