Camera Link Molded Extension Cables

Wayzata, Minnesota, USA
—Intercon 1 a division of Nortech Systems, Inc. (NSYS), the main global supplier of Camera Link cables, will announce the release of Molded Camera Link extension cables and a new right-angle low profile Camera Link plug connector at The Vision Show 2004.

The new cables will be on display and offered in custom lengths from 0.5 meters.

They are marketed with a straight plug connector (*illustrated*) or a choice of right angle plug molds. Right angle molds are available in 39 mm or 22 mm versions (*illustrated*) and in the UP or DOWN position.

All external Camera Link cable assemblies are constructed with Intercon 1 InterFlex High-Flex Camera Link cable. Other Camera Link offerings include all lengths of standard cables, custom lengths, internal interconnects, assemblies with squeeze latch connection, and cable couplers. Further information is available through Intercon@nortechsys.com where the current PDF catalog may be downloaded.
